[Basic Information](#)

[Checkups and Tests Record](#)

[Cancer Tests Tracker](#)

[Shots Chart](#)

[Medicine Minder](#)

This guide was developed by the Agency for Healthcare Research and Quality (AHRQ), part of the U.S. Department of Health and Human Services.

AHRQ is the lead Federal agency charged with supporting research designed to improve the quality of health care, reduce its cost, and broaden access to essential services.

The [U.S. Preventive Services Task Force](#) (USPSTF), an independent panel of experts in primary care and prevention convened by AHRQ, systematically reviews the evidence of effectiveness of clinical preventive services—screening tests, immunizations, counseling, and chemoprevention (for example, aspirin to prevent cardiovascular disease)—and makes recommendations for their use in primary health care. This guide is based on USPSTF recommendations.

[Put Prevention Into Practice](#) (PIIP), a national program sponsored by AHRQ, develops resources for clinicians, patients, and office systems to increase the delivery of USPSTF-recommended preventive services in the primary care setting.

To order copies of this guide, call the AHRQ Publications Clearinghouse at 1-800-358-9295 or E-mail at ahrqpubs@ahrq.gov.

The appearance of service marks or logos should not be construed as an endorsement of any company or organization—or its services—that has been granted permission to reprint this publication.

The USPSTF continuously updates its recommendations on clinical preventive services and makes them available on the AHRQ Web site. PIIP tools are revised regularly to correspond with USPSTF updates and are also available on the AHRQ Web site.

For the most current recommendations and updates, visit the preventive services section of the AHRQ Web site at www.preventiveservices.ahrq.gov. Or, for immediate notification of new and updated recommendations from the current USPSTF and new resources from the PIIP program, join the AHRQ Prevention LISTSERV®. To join the LISTSERV®, go to www.ahrq.gov/clinic/prev/prevlistserv.htm.
